

ANONA CHILD DEVELOPMENT CENTER
Photograph and Video Permission

Dear Parents,

On occasion, Anona Child Development Center may want to take photographs or videos of children participating in daily activities and special events. The photographs and/or video recordings of your child/children may be used by Anona Child Development Center for the purposes of having a visual record of developmentally appropriate classroom activities, of providing a tool for the development of future teachers in the program, as a video recording for the purpose of the on-going evaluation process of the school or for use in orientation video footage. Photos and videos may be used in the classroom including some of the following ways; the School Family Photo Album, Birthday Book, bulletin boards, or on our web site.

In addition, Anona United Methodist Church may use photographs and videos of its ministries and church programs (including special events like Vacation Bible School) for the pictorial directory, Facebook and/or the Anona.com website. For church purposes, no child will be identified by name, but we want to have your permission in case your child would happen to be included in the photo or video selected. I understand that this will be done without compensation to me.

In order to photograph or video your child/children, your permission is needed. Your cooperation is appreciated!

Please print name of child/children
